

HISTORY OF INDIANA YAC

The Indiana Young Agents Committee was officially established in 1980 with the purpose of developing young insurance professionals within the independent agency system and insurance industry. With more than 230 active members, Indiana YAC is nationally renowned as being an elite group among its peers — winning eleven national awards of excellence over the last nine years, the most of any state. Ten IIAI Presidents have participated in Indiana YAC activities over the years. With the great drive and vision possessed by the current leadership team, Indiana Young Agents have a bright and prosperous future.

YAC MISSION STATEMENT

To support the perpetuation of the American Agency System by fostering the professional development of young agents within The Independent Agency System.
